

PRODUCTION REFERENCE · v1.2.0

BHIL CREATORS PLAYBOOK FOR ADVANCED AI IMAGE GENERATION

Talent Intelligence Add-On

Production prompts, compliance framework, and visual standards

for AI image generation in executive search, talent intelligence,
and recruiting communications

20 COPY/PASTE PROMPTS · COMPACT LAYOUT

Barry Hurd Intelligence Lab

April 2026

Human-Directed. AI-Enabled. Commercially Tested.

Contents

This reference document summarizes the BHIL Creators Playbook Talent Intelligence Add-On. The full add-on lives at [industry-addons/talent-intelligence/](#) in the parent repository. v1.2.0 tightens the layout of the copy/paste prompt library so 2-3 prompts fit per page.

11	Copy/Paste Prompt Library — 20 Production Prompts	—

1 · Executive Summary

The talent intelligence and recruiting industry has a visual identity problem rarely named explicitly: most generated imagery in the industry reads as generic stock because the industry's actual visual vocabulary is bifurcated, not unified. The high end (Korn Ferry, Spencer Stuart, Egon Zehnder, Russell Reynolds, Heidrick & Struggles) is converging on an austere editorial idiom closer to Foreign Affairs than to a tech startup. The platform layer (Eightfold, Gloat, Lightcast, Beamery) is converging on a dark-gradient agentic-AI dashboard idiom. The agency middle (Randstad, Robert Half, Adecco, ManpowerGroup) sits between the two, leaning illustration-led.

This add-on encodes those three sub-registers explicitly, provides 16 production prompts in their dialects, and bakes in the compliance framework that AI imagery in recruiting now requires. v1.2.0 retains the 20-prompt copy/paste library from v1.1 with a tightened layout that fits 2-3 prompts per page rather than one-per-page.

- The talent industry's visual register is bifurcated; a prompt that doesn't pick a sub-register reads as off-brand.
- AI imagery in recruiting now sits inside the tightest compliance envelope in commercial creative — EU AI Act Article 50 (Aug 2026), Colorado AI Act (Jun 2026), Illinois HB 3773 (Jan 2026), Ontario Bill 149 (Jan 2026), Tennessee ELVIS Act, and Mobley v. Workday class certified May 2025.
- The candidate-imagery problem is the central design constraint — AI for abstract/environmental, real photography (with consent and C2PA-tagged provenance) for humans wherever a viewer might mistake the subject for a real employee or candidate.

DEFAULT RULE

AI for abstract concept and environmental/background. Real photography (with consent and C2PA-tagged provenance) for humans wherever a viewer might mistake the subject for a real employee or candidate. Anonymous-silhouette / illustrated / environmental alternatives are the legitimate exits.

2 · The Three Sub-Registers

Every prompt declares its sub-register explicitly. The parent BHIL register maps onto sub-register A; B and C require explicit deviation toolkits.

Register	Visual Logic	Anchor Firms / Platforms
A — Retained-search editorial	Single-accent palette, generous white space, soft documentary portraiture, serif/humanist-sans typography, architectural metaphor	Korn Ferry, Spencer Stuart, Egon Zehnder, Russell Reynolds, Heidrick & Struggles
B — Talent-intelligence platform dashboard	Dark gradient meshes, glowing node graphs, choropleth globes, bento-grid stat tiles, AI-agent chat panels	Eightfold, Gloat, Lightcast, Beamery, Draup, TalentNeuron
C — Recruiting-agency editorial-illustration hybrid	Lower-case sentence-case headlines, illustration libraries, documentary daylight portraiture, single-color chapter dividers	Randstad, Adecco, Robert Half, ManpowerGroup, AMS, Cielo

3 · The 14 Canonical Deliverable Types

#	Deliverable	Default Register	Tier
1	Candidate dossier cover	A	3
2	Executive bio plate / leadership brief	A	3
3	Anonymized market mapping / org chart	A	2-3
4	Board search deliverable / board index	A	3
5	Platform dashboard hero plate	B	2
6	Skills graph / capability network	B	2
7	Talent flow / migration visualization	B	2
8	HR Tech vendor pitch deck hero	B	2
9	Career site hero imagery	C	2
10	LinkedIn recruiter campaign tile	C	1
11	EVP pillar treatment	C	2
12	Job posting / req hero	C	1
13	Workforce trends report cover	A or C	3
14	Salary / compensation report cover	C	2
(15)	DEI report cover	A or C	3
(16)	Conference keynote backdrop	B	2

4 · The Candidate Imagery Problem & Default Rule

Every visual decision in talent work routes through one question: when imagery shows a person, who is that person, and where did the likeness come from. Four solutions are in active use, each with documented failure modes (Levi's × Lalaland 2023, Mango Teen 2024, Coca-Cola 2024-2025, Google Gemini Feb 2024, Aerie pledge Oct 2025). The add-on encodes a single default rule across all prompts:

DEFAULT RULE — ENFORCED AT THE PROMPT LEVEL

AI for abstract concept and environmental/background. Real photography (with consent and C2PA-tagged provenance) for humans wherever a viewer might mistake the subject for a real employee or candidate. Anonymous-silhouette / illustrated / environmental alternatives are the legitimate exits.

5 · Sixteen Production Prompts — Catalog

Each prompt is documented at depth in its dedicated file in the add-on. Section 11 in this v1.2.0 doc adds 20 ready-to-customize prompts (some are alternative variants of the 16 source prompts) for production teams.

#	Prompt	Register	Models
01	Candidate Dossier Cover	A	MJ v7 + Ideogram
02	Executive Bio Plate	A	MJ v7 + real photo
03	Anonymized Market Map	A	GPT Image 2 / NB Pro
04	Board Search Deliverable	A	MJ v7 + Ideogram
05	Dashboard Hero Plate	B	GPT Image 2 / Flux.2 Pro
06	Skills Graph Network	B	Flux.2 Pro / Recraft V3
07	Talent Flow Sankey	B	GPT Image 2 / Flux.2 Pro
08	Vendor Pitch Deck Hero	B	GPT Image 2 + Ideogram
09	Career Site Hero	C	Recraft V3 / NB Pro
10	LinkedIn Recruiter Tile	C	Ideogram v3
11	EVP Pillar Treatment	C	Recraft V3 + Ideogram
12	Job Posting Environmental	C	NB Pro / MJ v7
13	Workforce Trends Cover	A or C	Ideogram + MJ
14	Salary Guide Cover	C	Ideogram + MJ
15	DEI Report Cover	A or C	MJ v7 + Ideogram
16	Conference Keynote Backdrop	B	MJ v7 + Ideogram

6 · Compliance Framework

AI imagery in recruiting now sits inside the tightest compliance envelope in commercial creative. The add-on encodes a defensible-by-default posture with five-year recordkeeping aligning with OFCCP requirements and providing headroom for EU AI Act and Colorado AI Act enforcement.

Jurisdiction	Statute / Guidance	Effective
US Federal	Title VII, ADEA, ADA, GINA, EPA; OFCCP Apr 2024 AI guidance	In force
Colorado	AI Act SB 24-205	Jun 30, 2026
Illinois	HB 3773 (Illinois Human Rights Act)	Jan 1, 2026
Tennessee	ELVIS Act	Jul 1, 2024
EU	AI Act Annex III §4 + Article 50	Aug 2, 2026
UK	ICO recommendations (Nov 2024)	Recommendations
Canada — Ontario	Bill 149 (Working for Workers Four)	Jan 1, 2026
Canada — Quebec	Law 25 §12.1	In force

7 · Three Production Tiers

Tier	Timeline	AI Use	Audience
Tier 1 — Fast iteration	Hours to days	Heavy	LinkedIn posts, job posting headers, internal comms
Tier 2 — Mid-tier	4-12 weeks	Moderate	Career-site refresh, EVP launch, conference materials
Tier 3 — Archival	6-24 weeks	Low or forbidden	Executive search dossiers, annual workforce reports, DEI reports

8 · Reference Exemplar Library

Exemplar	Anchor For
Heidrick & Struggles — Route to the Top 2025	Mountain/summit metaphor cover
Spencer Stuart — 2025 US Board Index	Serif editorial; red-bar masthead
Korn Ferry — Brand Experience V3 (Feb 2025)	'Radically human' photography brief
Lightcast — Fault Lines (Feb 2026)	Tectonic-fault metaphor; chapter scrollytelling
Eightfold — Infinite Workforce	Dark-purple gradient + aqua/orange register
Symphony Talent × bp 'We're making bp'	2025 RMA Grand Prix campaign
Marriott 'Be' (begin / belong / become)	Three-pillar EVP template
Robert Half — 2026 Salary Guide	Year as typographic anchor

9 · Add-On Directory Map

The full add-on is 47 files at `industry-addons/talent-intelligence/`.

Path	Contents
<code>./</code>	README.md, CHANGELOG.md
<code>docs/</code>	5 files — orientation, sub-register taxonomy, deliverable types, candidate imagery problem, glossary
<code>compliance/</code>	6 files — AI imagery policy, disclosure standards, jurisdiction matrix, representation testing, consent rules
<code>reference/</code>	5 files — sub-register A/B/C visual specs + exemplar library
<code>prompts/</code>	22 files — 16 production prompts + category READMEs
<code>templates/</code>	4 files — dossier, employer brand, AI disclosure templates
<code>workflows/</code>	3 files — three production tiers + decision tree

10 · Roadmap

- v1.2.0 (current) — 20-prompt library with tightened layout (2-3 prompts per page).
- v1.3.0 (Q3 2026) — Worked case studies, anonymized end-to-end project walkthroughs.
- v1.4.0 (Q4 2026) — Sub-register D (boutique/specialist firms), industry-vertical reference files.
- v2.0.0 (2027) — Motion deliverables, Veo 3.1 / Runway Gen-4 patterns for talent.

11 · Copy/Paste Prompt Library — 20 Production Prompts

This section provides 20 ready-to-customize prompts for the most common talent-industry deliverables. Each prompt is numbered, titled, and tagged with its sub-register, recommended model, and aspect ratio. Bracketed [PLACEHOLDERS] in red mark fields you should replace with project-specific values before generating.

How to use this library: copy the prompt code-block; replace every red [PLACEHOLDER] with your project value; submit to the recommended model with the noted parameters. For composite deliverables (cover + typographic overlay) use Workflow Recipe C from the parent playbook.

BEFORE YOU GENERATE

Every prompt below assumes the default rule is in force. Prompts that produce imagery resembling people are written to produce environmental, illustrated, or clearly archetypal output — never photo-real fabricated employees. If you adapt a prompt and remove the guardrails, you take on the compliance posture of doing so. The add-on's compliance documentation is non-optional for production work.

Quick reference — the 20 prompts

#	Prompt	Register	Model
01	Candidate Dossier Cover — Mountain Summit	A	Midjourney v7
02	Candidate Dossier Cover — Architectural Building	A	Midjourney v7
03	Dossier Cover — Typographic Overlay	A	Ideogram v3
04	Anonymized Market Map — Bubble Cluster	A	GPT Image 2 / NB Pro
05	Board Search Deliverable — Spencer Stuart Register	A	MJ v7 + Ideogram
06	Platform Dashboard Hero — Eightfold Register	B	GPT Image 2 / Flux.2 Pro
07	Skills Graph Network — Force-Directed Glow	B	Flux.2 Pro / Recraft V3
08	Talent Flow Sankey — Width-Weighted Ribbons	B	GPT Image 2 / Flux.2 Pro
09	Vendor Pitch Deck Hero — With Recognition Badges	B	GPT Image 2 + Ideogram
10	Career Site Hero — Illustrated Alternative	C	Recraft V3
11	Career Site Hero — Environmental Workspace	C	Nano Banana Pro
12	LinkedIn Recruiter Tile — Typography-Only Quote	C	Ideogram v3
13	EVP Pillar Icon Set — Three-Pillar Grid	C	Recraft V3

#	Prompt	Register	Model
14	EVP Pillar Layout — Three-Column Grid	C	Ideogram v3
15	Job Posting Environmental — Engineering Workspace	C	Nano Banana Pro
16	Job Posting Environmental — Lab / Scientific Workspace	C	Nano Banana Pro / MJ v7
17	Workforce Trends Cover — Topographic Gradient	Mixed (A or C)	MJ v7 + Ideogram
18	Salary Guide Cover — Brand-Color Wave	C	MJ v7
19	DEI Report Cover — Architectural Restraint	A	Midjourney v7
20	Conference Keynote Backdrop — Ultra-Wide LED	B	MJ v7 + Ideogram

Sub-Register A — Executive Search & Retained-Search Editorial

01

Candidate Dossier Cover — Mountain Summit

Sub-register A · Midjourney v7 · 8.5×11" (--ar 17:22)

Use: Cover plate for confidential candidate dossier (longlist, slate, final recommendations).

Compliance: No real-person likeness. Anonymization conventions enforced. C2PA applied.

Editorial cover photograph for a confidential executive search dossier. A solitary mountain ridge at first light, wreathed in low cloud, the summit lit warm against deep navy sky. Restrained composition, generous negative space in the upper third for typographic overlay. Documentary-photography register, slight grain, slightly desaturated palette, warm cast in highlights, cool cast in shadows. No people, no buildings beyond a distant horizon line. Foreign Affairs editorial photography register. [BHIL profile] --ar 17:22 --style raw --stylize 200 --v 7

02

Candidate Dossier Cover — Architectural Building

Sub-register A · Midjourney v7 · 8.5×11" (--ar 17:22)

Use: Alternate cover for corporate-development, financial-services, or institutional searches.

Compliance: No real-person likeness. C2PA applied.

A modernist corporate building exterior at dawn, low-angle, the facade lit warm against indigo sky. Restrained, no people in frame, generous negative space above for typographic overlay. Documentary architectural photography register reminiscent of Hedrich Blessing, slight grain, slightly desaturated. [BHIL profile] --ar 17:22 --style raw --stylize 200 --v 7

03

Dossier Cover — Typographic Overlay

Sub-register A · Ideogram v3 · 8.5×11" portrait

Use: Typographic overlay layered onto architectural base from Prompts 01-02.

Compliance: Confidentiality stamp non-decorative. Codenames real and project-specific.

Editorial cover layout. Top-left: small-caps tracked label "[PRACTICE AREA] PRACTICE" in warm ivory at 9pt. Center upper-third: editorial display title "[PROJECT CODENAME]" in heavy serif (Canela Deck or GT Sectra Bold register), warm ivory, 72-84pt. Below title: "Slate of Candidates · [SEARCH SLATE NUMBER]" in regular serif italic, warm ivory, 16pt. Lower-right: "[CLIENT FIRM]" wordmark small. Lower-left: diagonal stamp "STRICTLY CONFIDENTIAL" in signal-red, 18pt, rotated -15 degrees, with hairline rule above and below. Footer center: "[YEAR] · [DOSSIER VERSION]" in 9pt regular. Subtle paper-grain texture overlay at 8% opacity.

04

Anonymized Market Map — Bubble Cluster

Sub-register A · GPT Image 2 / NB Pro · 11×17" tabloid

Use: Market mapping visualization for the talent landscape of a search engagement.

Compliance: No real-company logo reproduction. No candidate identification.

Editorial bubble-cluster market map for an anonymized executive search talent landscape, 11x17 tabloid landscape. Approximately [N] circular nodes of varying sizes arranged in a constellation, each node sized by candidate-pool count, each colored by industry sector using a restrained 4-color palette (deep navy, warm amber, signal red, neutral gray). Each node labeled with a generic role-and-industry descriptor only ("[ROLE TITLE] - [INDUSTRY ARCHETYPE]") in 10pt humanist sans, warm ivory text. No real company names, no logos, no candidate names. Hatched neutral monogram circles with small lock icons mark confidential nodes. Hairline gray lines suggest relationships. Legend bottom-left explains the anonymization convention. Light cream paper background with subtle grain.

Board Search Deliverable — Spencer Stuart Register

Sub-register A · MJ v7 + Ideogram · A4 portrait

Use: Cover for board-search deliverable or board composition study.
Compliance: *Strictest provenance and licensing. AI imagery requires policy approval per project.*

Editorial board-grade publication cover, A4 portrait. Full-bleed warm ivory background with subtle paper-grain texture overlay at 8% opacity. Top-left: small-caps "BOARD OF DIRECTORS PRACTICE" wordmark in 11pt warm navy. Below wordmark: "[EDITION] · [YEAR]" in tracked small caps, 10pt warm navy. Horizontal red bar [#C8102E width 60%] sits below the wordmark zone. Center upper-third: editorial display title "[REPORT TITLE]" in heavy serif (Rotis Serif Regular or Canela Deck register), warm navy, 80-96pt. Below title: subtitle "[REPORT SUBTITLE]" in regular weight serif italic, 24pt warm navy. Lower-third: very large year "[YEAR]" in serif display 144-180pt, warm navy at 25% opacity. Footer: small attribution copy and edition number in 9pt regular.

Sub-Register B — Talent Intelligence Platform Dashboard

06

Platform Dashboard Hero — Eightfold Register

Sub-register B · GPT Image 2 / Flux.2 Pro · 16:9 landscape

Use: Hero plate for platform marketing site, product page, or sales deck.

Compliance: AI agent avatars must be clearly stylized. Dashboard data obviously sample.

Talent intelligence platform dashboard hero plate, 16:9 landscape. Dark gradient mesh backdrop transitioning from deep purple [#2D1A4A] in upper-left through deep indigo [#1A1A4A] center to deep navy [#0A0A2E] lower-right. Floating rounded-card UI elements arranged in a bento-grid composition: top-left a choropleth world map quadrant in lavender-coral gradient; top-center a force-directed node graph with 30-40 glowing aqua [#00C4D4] nodes; top-right a giant statistic tile reading "[METRIC] [NUMBER]" with a coral [#FF6B6B] up-delta arrow; mid-left a Sankey-like ribbon flow in coral and aqua; mid-center a stack of skill chips in lime [#B6E55C] and aqua; right-side a docked AI agent chat panel with stylized geometric avatar (no human face). Atmospheric particle effect across the mid-ground. No people, no faces, no figures. Eightfold Infinite Workforce / Gloat Loomra reference.

07

Skills Graph Network — Force-Directed Glow

Sub-register B · Flux.2 Pro / Recraft V3 · 1:1 square

Use: Standalone skills graph visualization for platform marketing or pitch deck.

Compliance: Skill names must not surface protected characteristics or disparate-impact patterns.

Force-directed skills network graph rendered on a deep gradient mesh background transitioning from indigo [#1A1A4A] center to near-black at the edges. Approximately 60-80 nodes as glowing dots in a primary platform accent color [#00C4D4 aqua], with selected hub nodes 2-3x larger and labeled with skill names ("[SKILL 1]", "[SKILL 2]", "[SKILL 3]") in 14pt regular humanist sans, warm ivory. Thin glowing lines connect related nodes, line thickness representing relationship strength. A subtle radial light source emanates from the network center. Atmospheric particles drift across the field. No people, no figures, no human shapes. Legend bottom-right with small chip swatches in 10pt regular. Square 1:1 format. Style: Gloat Loomra / Eightfold Capability Dashboard.

08

Talent Flow Sankey — Width-Weighted Ribbons

Sub-register B · GPT Image 2 / Flux.2 Pro · 16:9 landscape

Use: Workforce mobility, migration, or career pathing visualization.

Compliance: Source attribution required for third-party data. Privacy considerations for individual data.

Editorial Sankey diagram showing [TALENT FLOW DESCRIPTION] from left to right, 16:9 landscape on a deep navy [#0A0A2E] gradient background. Six source categories on the left labeled "[SOURCE 1]" through "[SOURCE 6]" stack vertically, six destination categories on the right labeled "[DESTINATION 1]" through "[DESTINATION 6]" stack vertically. Width-weighted ribbon flows curve smoothly from source to destination, ribbons rendered with soft glow in graduated colors: aqua [#00C4D4], coral [#FF6B6B], lime [#B6E55C], magenta [#D94BCC]. Major flow junctions marked with small data callouts ("[N]% to [DESTINATION]") in 11pt regular humanist sans, warm ivory. Source attribution caption bottom-center: "Source: [DATA SOURCE], [PERIOD]". No people, no figures.

09

Vendor Pitch Deck Hero — With Recognition Badges

Sub-register B · GPT Image 2 + Ideogram · 16:9 (1920×1080)

Use: Hero slide for HR Tech vendor pitch deck or analyst briefing.

Compliance: Recognition badges require licensing. Verify entitlement before deploying.

HR Tech vendor pitch deck hero, 16:9 (1920x1080). Same dashboard hero plate composition as the Eightfold-style hero (deep purple gradient mesh, floating bento-grid UI cards, glowing skills graph, Sankey ribbon, AI agent panel docked right) but with the platform brand mark "[PLATFORM]" prominently placed center-upper, 64pt warm ivory. Below brand mark: tagline "[PLATFORM TAGLINE]" in regular weight italic, 22pt at 70% opacity. Lower-third: a horizontal strip of three recognition badges side-by-side: "[BADGE 1]", "[BADGE 2]", "[BADGE 3]", each rendered as a small rounded plaque in warm ivory on the dark background. Founding-year or scale stat in display type lower-right: "Trusted by [N] enterprises". No people, no faces, no figures.

Sub-Register C — Employer Brand & Recruitment Marketing

10

Career Site Hero — Illustrated Alternative

Sub-register C · Recraft V3 · 16:9 desktop / 9:16 mobile

Use: Career site hero when real photography isn't feasible — illustrated alternative.

Compliance: *MUST be unmistakably illustrated, not photo-real. Default rule prohibits AI-generated photo-real fabricated employees.*

Editorial illustrated workplace scene in flat-vector register reminiscent of GitLab and Notion brand illustration. A team of 3-4 figures collaborating around a laptop in a sunlit modern office, faces stylized and unmistakably illustrated rather than photo-real, gestural rather than detailed, hand-drawn quality. **[BRAND ACCENT]** as primary fill color with soft cream secondary; deep navy line work. Natural daylight from a window at left, warm cast in highlights. Generous negative space at right for headline overlay. Stylized rather than photographic — this should not read as photography. Style: Recraft V3 illustration register, Mailchimp Collins-influenced outsider art register.

11

Career Site Hero — Environmental Workspace

Sub-register C · Nano Banana Pro · 1920×1080 desktop

Use: Career site hero when no human subject is needed — environmental workplace detail.

Compliance: *No-people convention sidesteps consent and likeness concerns. Visible AI disclosure required.*

Documentary workplace photograph, eye-level perspective, a working desk in a sunlit modern office. Mid-day natural daylight from a window at left, warm cast in highlights, slight desaturation. Visible: an open laptop with a code editor or design tool, a notebook with handwritten notes, a ceramic mug, a small plant. No people in frame, no faces, no figures implied. Slight depth-of-field, focus on the desk surface, background gently blurred. Tailored, lived-in, real — not staged stock photography. **[BRAND PROFILE]** register applied through subtle ambient color cast. Slight grain, documentary photography register reminiscent of Stripe and Notion careers imagery.

12

LinkedIn Recruiter Tile — Typography-Only Quote

Sub-register C · Ideogram v3 · 1200×1200 square

Use: LinkedIn recruiter campaign tile, InMail attachment, sourcing outreach.

Compliance: *Quote attribution requires consent. Quote modification requires re-confirmation.*

Editorial recruitment social tile, 1200×1200 square. Full-bleed background in **[BRAND ACCENT]**. Center-left: editorial display pull-quote in serif (Canela Deck or GT Sectra Bold register), warm ivory, weighted at 48-56pt, 5-7 lines. Quote: "**[QUOTE]**" Below quote, small horizontal hairline rule in warm ivory at 30% opacity. Below rule: attribution in two lines — line one: "**[EMPLOYEE NAME]**" in regular weight serif italic, 18pt; line two: "**[ROLE TITLE]** · **[LOCATION]** · **[TENURE]**" in 14pt regular sans. Lower-right corner: "**[CLIENT FIRM]**" wordmark in warm ivory at 16pt. Restrained, lower-case sentence-case quote, generous negative space.

13

EVP Pillar Icon Set — Three-Pillar Grid

Sub-register C · Recraft V3 · 200×200 per icon

Use: Custom icon system for EVP framework (Marriott Be model, CAE Our Promise For All).

Compliance: *Icon system fully AI-permitted (abstract metaphor). No representation testing required for abstract icons.*

A set of three custom icons for an EVP pillar system, in a unified flat-vector illustration register. Each icon is geometric, simple, hand-drawn quality, with consistent line weight (3px) and consistent style across all three. Each icon is rendered in **[BRAND ACCENT]** line work on a soft cream/ivory ground. Style: flat-vector illustration in the register of GitLab brand iconography or Notion brand iconography. Each icon should fit a 200×200 square with generous padding. Icons are abstract metaphors for: **[PILLAR 1]**, **[PILLAR 2]**, **[PILLAR 3]**. No text, no labels, no people in the icons.

14

EVP Pillar Layout — Three-Column Grid

Sub-register C · Ideogram v3 · 16:9 landscape

Use: Layout that hosts the EVP pillar icons + headlines + supporting copy.**Compliance:** *Lower-case sentence-case throughout. EVP framework name as IP; trademark search before launch.*

EVP pillar layout, three columns side-by-side, full-bleed cream/ivory background. Each column has: small custom icon centered at top (200x200), a short sentence-case word or phrase headline immediately below in serif display 36pt warm navy, 2-3 lines of supporting copy in regular sans 14pt below headline, and a faint horizontal hairline rule at column bottom. Columns separated by generous negative space. Below the three columns: a single banner row with the EVP framework name in serif display 28pt centered. Pillar 1: **[PILLAR 1]** – "**[PILLAR 1 SUPPORTING COPY]**". Pillar 2: **[PILLAR 2]** – "**[PILLAR 2 SUPPORTING COPY]**". Pillar 3: **[PILLAR 3]** – "**[PILLAR 3 SUPPORTING COPY]**". Framework name banner: "**[EVP FRAMEWORK NAME]**". Lower-right: **[CLIENT FIRM]** wordmark in 14pt warm navy.

15

Job Posting Environmental — Engineering Workspace

Sub-register C · Nano Banana Pro · 1600x400 banner

Use: Job posting hero, LinkedIn req page, careers-site role detail page.**Compliance:** *No faces, no figures, no implied people. Visible AI disclosure on the page.*

Documentary workplace photograph, eye-level, **[JOB FAMILY]** workspace in a modern office. Mid-day natural daylight from a window at left, warm cast in highlights, slight desaturation. Visible: an open laptop with a code editor, a notebook with handwritten notes, a ceramic mug, headphones, a small plant. No people in frame, no faces, no figures implied, no hands. Slight depth-of-field, focus on the desk surface, background gently blurred showing a sense of an open-office context. Tailored, lived-in, real – not staged stock photography. Documentary photography register reminiscent of Stripe and Notion careers imagery. Subtle **[BRAND ACCENT]** in the code editor on the laptop screen.

16

Job Posting Environmental — Lab / Scientific Workspace

Sub-register C · Nano Banana Pro / MJ v7 · 1600x400 banner

Use: Job posting hero for research, science, healthcare role contexts.**Compliance:** *No faces, no figures. Documentary register.*

Documentary workplace photograph, eye-level, a scientific research workspace in a modern lab. Mid-day natural light from overhead, slight cool cast, slight desaturation. Visible: a microscope on a clean bench, lab notebooks with handwritten notes, sample tubes neatly arranged, a tablet showing data. No people in frame, no faces, no figures, no hands. Slight depth-of-field, focus on the bench surface, lab corridor softly blurred in background. Tailored, lived-in, real – not staged stock photography. Documentary photography register. Subtle **[BRAND ACCENT]** in a small object on the bench.

Workforce Reports & Conference Materials

17

Workforce Trends Cover — Topographic Gradient
Mixed (A or C) · MJ v7 + Ideogram · A4 portrait (--ar 17:22)

Use: Cover of annual or recurring workforce intelligence publication (WEF, Lightcast, Bain register).
Compliance: *Most archival reports prohibit AI imagery on cover; abstract metaphor only where permitted.*

Editorial cover background, abstract metaphor for "[REPORT THEME]". A topographic gradient field reading as a stylized terrain or ocean swell, in restrained palette of [BRAND ACCENT] over deep navy ground, with subtle paper-texture grain. The composition has generous negative space in the upper-third for typographic title overlay and lower-third for subtitle. No people, no figures, no buildings. Restrained, editorial, slightly desaturated, slight grain. Foreign Affairs editorial cover register. [BHIL profile] --ar 17:22 --style raw --stylize 200 --v 7

18

Salary Guide Cover — Brand-Color Wave
Sub-register C · MJ v7 · A4 portrait (--ar 17:22)

Use: Annual salary guide / compensation report cover (Robert Half register).
Compliance: *No human subjects on AI-generated covers. Salary methodology page required separately.*

Editorial cover background, abstract wave or undulation motif representing compensation movement and market dynamics. A flowing horizontal banded gradient in [BRAND ACCENT] saturating to deeper [BRAND ACCENT] at the bottom edge, with subtle vertical striations suggesting income bands or cohort divisions. The composition has generous negative space in the upper-third for typographic title overlay. No people, no figures, no buildings. Restrained, editorial, slightly desaturated, slight grain. Sub-register C agency editorial register, Robert Half cover register. [BRAND PROFILE] --ar 17:22 --style raw --stylize 200 --v 7

19

DEI Report Cover — Architectural Restraint
Sub-register A · Midjourney v7 · A4 portrait (--ar 17:22)

Use: Annual DEI / belonging / equity report cover (board / institutional audience).
Compliance: *HIGHEST STAKES IN ADD-ON. Synthetic-diversity prohibited. Architectural restraint sidesteps the problem.*

Editorial cover photograph for a DEI report. A modernist corporate building interior, mid-day, generous natural daylight from floor-to-ceiling windows, the architectural structure (columns, exposed beams, an atrium) rendered as the cover subject. No people visible, no figures, no implied human presence. Restrained palette of warm ivory and deep navy with [BRAND ACCENT] subtle accent in a single architectural detail. Slight grain, slightly desaturated, documentary architectural photography register reminiscent of Hedrich Blessing or Iwan Baan. Generous negative space in the upper-third for typographic title overlay. Foreign Affairs editorial cover register. [BHIL profile] --ar 17:22 --style raw --stylize 200 --v 7

20

Conference Keynote Backdrop — Ultra-Wide LED
Sub-register B · MJ v7 + Ideogram · Ultra-wide 2.5:1 (--ar 5:2)

Use: LED backdrop behind keynote speaker at HR Tech / talent intelligence conference.
Compliance: *Recognition badges require licensing. Conference IP licensing for wordmarks. Motion variant requires Veo/Runway provenance.*

Conference keynote stage backdrop, ultra-wide 2.5:1 aspect ratio. A dark gradient mesh backdrop transitioning from deep [PLATFORM PRIMARY] in upper-left through deep navy center to deep [PLATFORM SECONDARY] in lower-right. Atmospheric particle effect – small glowing dots and light streaks like an aurora – in [PLATFORM ACCENT] across the mid-ground. Soft volumetric light from upper-left suggesting stage lighting integration. Generous negative space in the center for typographic headline overlay. No people, no figures, no buildings. Atmospheric, theatrical, restrained. Sub-register B platform dashboard register. [PLATFORM PROFILE] [PLATFORM SREFS] --ar 5:2 --style raw --stylize 300 --v 7

PRODUCTION POSTURE

This document is a reference summary. The full add-on (47 files at industry-addons/talent-intelligence/) is the production resource. Section 11's 20 prompts are designed to get your team to first generation quickly; the full prompt files in the add-on contain four-variant libraries, parameter tables, failure modes, and detailed compliance notes per prompt.
